

RT125 QUAD RIDE-ON TRENCHER

KEY FEATURES/BENEFITS

TURBOCHARGED DEUTZ®, TIER 4 DIESEL ENGINE

with 121 hp (90 kW) and reliable hydrostatic transmission keeps you running strong all day long.

SUPERIOR QUAD TRACK SYSTEM

and standard four-wheel drive provide superior traction and maneuverability for both paved and off-road work.

MASSIVE, HEAVY-DUTY UNDERCARRIAGE

provides a low center of gravity for increased stability, production and drawbar.

THREE-SPEED, SHIFT-ON-THE-FLY GROUND

DRIVE senses load conditions and automatically adjusts for maximum performance.

BEST-IN-CLASS GROUND CLEARANCE

of 15.5 inches (394 mm) helps the RT125 Quad be more productive over rough terrain.

REDESIGNED OPERATOR'S STATION

features more legroom, a redesigned seat and controls console that rotates 120 degrees for easier, more comfortable operation.
