

HAMMERHEAD®

STILL TOUGH. STILL TRUSTED.

HAMMERHEAD®
TRENCHLESS EQUIPMENT

SUPERIOR POWER FOR THE TOUGHEST OF TRENCHLESS PROJECTS
HYDROGUIDE® HG20

HAMMERHEAD® HYDROGUIDE® HG20

BUILT FOR TOUGH PIPE BURSTING JOBS

SUPERIOR POWER FOR ALL THE REALLY TOUGH JOBS.

The HydroGuide® HG20 winch has a compact design that increases maneuverability, simplifies transport and allows setup in tight areas. With 40,000 lbs (178 KN) of pull, the HG20 has the power to handle longer and larger pipe bursting 6 – 30" (150 – 750 mm) diameter pipe, slip lining, pipe pulling, cable pulling and swage lining jobs.

Like all HammerHead winches, the HG20 provides continuous tension on the cable while adjusting the line speed automatically.

DESIGNED FOR THE TRENCHLESS INDUSTRY.

Designed specifically for the trenchless industry, the HG20 can perform pipe bursting, slip lining, swage lining, cable and pipe pulling projects.

The solid dual capstan design offers constant pulling force over the entire cable length and helps reduce cable wear.

A proven bullwheel and planetary drive system provides superior reliability and performance on the job, where it counts.

EQUIPMENT SPECIFICATIONS

HYDROGUIDE® HG20	Rig Size L/W/H – in (m)	159/81/66 (404/206/168)
	Weight – lb (kg)*	7,000 (3,175)*
	Max. pulling force – tons (t)	20 (18.1)
	Engine – HP (kw)	36 (26.5)
	Engine manufacturer/model	Kubota V1505, Diesel
	Cooling system	Water cooled
	Downrigger length – ft (m)	19 (5.79)
	Cable diameter – in (mm)	.875 (22)
	Cable weight – lb (kg)	2,840 (1,288)
	Standard usable cable length - ft (m)	1,250 (381)

FEATURES	Single planetary bullwheel design	Standard
	Multi position leveling jacks	Standard, manual (1 front, 2 rear)
	Remote hydraulics	Standard
	Electric start	Standard
	Max. usable cable capacity – ft (m)	2,000 (610)
	Downrigger mast extension	Optional

*Weight without cable.
